MUHAMMED SALEETH

MEARN STACK DEVELOPER

Bahrain,manama | muhammedsaleethk@gmail.com| +973 38146087 | LinkedIn | GitHub

PROFILE

Experienced in developing full-stack web applications using MongoDB, Express.js, Angular, React, and Node.js (MEARN). Proficient in creating dynamic, responsive front-end interfaces with React and Angular, and building robust back-end solutions with Node.js and Express.js. Additionally skilled in database management, RESTful API integration, and version control with Git. Familiar with deployment practices and cloud services to optimize web application performance. Committed to delivering innovative and efficient web solutions while staying updated with the latest industry trends.

EXPERIENCE

MEARN Full Stack Developer   **[Aug 2023 - May 2024]**
Trainee Luminar Technolab, Kerala

- Completed comprehensive MEARN stack training covering MongoDB, Express.js, Angular, React, and Node.js.
- Hands-on experience in designing, building, and deploying web applications.
- Applied best practices in code development and Git version control.
- Acquired practical knowledge in RESTful API design, database management, and client-server communication.

SKILLS

Front-End Development: HTML5, CSS3, JavaScript, React.js, Angular.js, Bootstrap, Tailwind CSS
Back-End Development: Node.js, Express.js, RESTful APIs, MongoDB
Git/GitHub, Netlify, Postman, Problem-Solving, Communication, Collaboration, Fast Learner, Adaptability
Language Proficiencies: English (Fluent), Malayalam (Native), Hindi (Intermediate), Arabic (Basic)

PROJECTS

E-Cart
html, css, javascript, react.js, redux.js
Developed an ecommerce web application utilizing Redux for state management, featuring wishlist and cart functionality to enhance user experience and streamline shopping processes.

Weather App
html, css, javascript, react.js, api fetch
Created a responsive React weather app for location-based forecasts, utilizing external APIs for real-time data and dynamic UI components.

BookMyDoc - A Doctor Appointment Web App
html, css, bootstrap, javascript, react.js, json server
Developed a doctor appointment booking web application using React and JSON Server, enabling users to seamlessly schedule appointments online.

Budget Calculator
html, css, javascript, local storage
Developed a secure budget calculator with personalized budgeting, featuring secure login and local storage integration. Utilized HTML, CSS, Bootstrap, and JavaScript for simplicity and security.
